RE: CLAIM FOR MULTI-STOREY ALLOWANCE

MONDAY 21 APRIL 2008

033-2008

DECISION

This matter relates to a claim by the Unions for the application of the relevant Award Multi-Storey Allowance to apply to the project.

The works consist of two four storey buildings connected by a linked core with substantial Plant Rooms on the upper level.

During the course of a conference held on site on April 18, 2008 and a subsequent Hearing held on April 21, 2008, Management accepted that the Plant Rooms met the criteria required to be regarded as a fifth floor level as outlined in the respective Awards.

Having considered the submissions of the parties and the nature of the project being undertaken, it is apparent that all of the works qualify for the application of the multi-story allowance provision.

In all of the circumstances the Panel concludes that the appropriate multi-storey allowance should be paid to all employees engaged on the project and should apply retrospectively from the commencement of works.
